NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre, giving directions and doing business with a big ear-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

## Presidential Nominations.]

WASHINGTON, March 18.—The following nominations were sent to the Senate to-day: Smith A. Whitfield, of Ohio, Second Assistant Postmaster General; Abraham D. Hazen, of Pennsylvania, Third Assistant Postmaster General; John W. Mason, of West Virginia, Commissioner of Internal Revenue; W. W. Thomas, of Maine, Minister to Sweden and Norway; S. R. Taylor, of Minnesota, Minister to the Netherlands; Charles E. Mitchell, of Connecticut, Commissioner of Patents; Nathan Murphy, of Arizona, Secretary of Arizona; John P. Ward, of Oregon, Appraiser of Merchandise in the district of Willamette in Oregon and Washington Territory.

The President sent the following nominations to the Senate yesterday: John R. McFee, of New Mexico, Associate Justice of the Supreme Court of New Mexico; Frank R. Aitkens, of Dakota, Associate Justice of the Supreme Court of Dakota. Whiteley Reid, of New York, Minister to France; Julius Goldsmith, of Wisconsin, Consul General at Vienna. The nomination of Eugene Schuttler, of New York, to be Assistant Secretary of State, was withdrawn, he having declined the appointment.

Captain Colly of the Constitution, who refused to permit the Germans to search his vessel at Apia, ought to receive some substantial acknowledgment of his bravery and patriotism. Although no American man-of-war was then in the harbor, this captain of a merchantman with the spirit which was wont to inspire our skippers in Revolutionary days, defied the German boat's crew sent to search his vessel, and so impressed them with his courage and manliness that they dared not board him. If every one in Samoa had shown equal courage in resisting German aggression the petty officials of Bismarck would never have got the idea that they owned the islands.

A Berlin dispatch says the Samoan Conference is not expected to be confronted by formidable difficulties. Slight doubts are expressed as to the attitude of America, but the German Government will do its utmost to prevent friction and at the same time maintain Germany's full right to deal with the Samoan rebels. Confidence is felt that the peaceful disposition of all three powers will render an agreement easy.

Ex-President Cleveland responded to the toast of "The United States," at the dinner Saturday night given by the Friendly Sons of St. Patrick. Among other remarks he said: "Whenever there exists a struggle for free government and for man's enfranchisement there will be found the aid and sympathy of the people of the United States." His address was full of patriotism, and evoked warm applause.

The New York Herald had an interview with General Roger A. Pryor, who says the Solid South will go to pieces on the rocks of protection, and her people will stand by the Republican party if the white men of the South will be permitted to control their State Governments and the bloody shirt is not waved. Pryor says there is now a great opportunity for the Republicans to capture the Southern States.

It is believed at the State Department that the Samoan Commission will not be able to start for Berlin before the middle of April, as the matter with which they have to deal is rather intricate, and preparation for its consideration involves exhaustive study of the large amount of diplomatic correspondence as well as long protocols of the former conference.

An official of the Denver and Rio Grande Western, says that road is not building extensions as reported, but has made a purchase of heavy steel rails for the purpose of changing the road to a broad gauge.

The Mexican conservative press is attacking President Harrison and Secretary Blaine, claiming that they are ambitious to have the United States possess Mexico.

The Democrats are boasting that they left \$200,000,000 more than they found in the National Treasury. But they expected to stay in four years longer.

A Berlin dispatch says it is expected that Herbert Bismarck and Councillor Cranel will represent Germany in the Samoan conference.

Four barrels of opium labeled "sankraut," valued at \$10,000, have been seized by the custom officers at Port Townsend, W. T.

Ex-President Cleveland was 52 years old Monday.

## DEALING WITH THE SOUTH.

The President Hopes to be Able to Bring Several of the Southern States Into the Republican Fold.

WASHINGTON, D. C., March 18.—President Harrison has not as yet formulated any policy concerning the Southern patronage, but from incidental remarks he has made to callers it appears tolerably clear that an effort will be made under this Administration to redeem a number of Southern States from Democratic rule. The President is mindful of the fact that there is a Republican party in the South; and he feels it his duty to protect and nurture this struggling party as much as he can. He does not desire simply to reward those who have faithfully borne the banner of Republicanism, but to so order matters as to win the respect and confidence of the best elements of the Southern population. The President has heard so much of the Southern situation that he now realizes what many prominent Republicans are unable to perceive—that the South is ripe for a break from its Democratic fetters. The old Whig element is beginning to reassert itself, and protection is the lever which can be used to split the Solid South in twain. Representative Alf Taylor says Tennessee is sure to become a Republican State within a short time, and that coal and iron are the moving influences in the redemption. Congressman Oates, though for many years a Democratic member of the House from Alabama, recently made this admission to one of his friends:

"Sometimes I feel I am more of a Republican than Democrat, and there are many people in my State who are beginning to feel the same way. On all things but the race question I believe we are Republicans. If the Republican party can eliminate the race question from its politics, remove from our people the danger of local Negro domination, it can have several Southern States for the asking."

Senator Brown, of Georgia, is almost a Republican. Senator Gibson, of Louisiana, leader of the Conservative Democrats who have swept that State away from the radicals and Democratic Tories, is a Republican in everything but name. With the black bagaboo out of their way the Conservatives of Louisiana would soon be found in the Republican party. Even from Tory South Carolina a Northern Republican traveling there on business sends this letter to a Republican Senator:

"There is really but one side to the question here. I have had my eyes opened. The frauds which nobody denies appear virtues. There is nothing to apologize for. Why, if the disenfranchising penalty of Negro rule and bankruptcy were not constantly threatened by Northern politicians, half the whites in Charleston would openly avow their belief in protection and vote the Republican ticket. It is only the handful of politicians down here who care a rap which side has a majority in Congress."

It was the Republican party of the South that took the House of Representatives from the Democrats. But for the three Republican Representatives from North Carolina and the one from Louisiana in the new House, that body would still be in Democratic hands. Add to these fourteen Republican Congressmen from the border States of Maryland, Virginia, Kentucky and Tennessee, with one from Arkansas and two from West Virginia in dispute, and the importance and faithfulness of Republican efforts in the States heretofore classed with the Solid South become apparent.

President Harrison has not overlooked the significance of these returns nor that of the vote on the Electoral tickets. With Maryland giving but 6,000 Democratic plurality, Tennessee less than 20,000, North Carolina only 13,000, West Virginia but 1,800, and the Old Dominion only 1,500, Republican prospects are by no means hopeless in the South.

## GEN. HARRISON'S POLICY.

It will be the part of wise party leadership and true Statesmanship in President Harrison to bring, or endeavor to bring, all of these States and perhaps others into the Republican fold. At this time the indications are that his first effort will be made in the direction of so filling Federal offices in the South as to command the respect of the people of both parties. While, of course, none but Republicans will be appointed to office in the South or elsewhere, it will happen in many cases that Democrats will be consulted. There are Postmasterships to be filled in the South in which the advice of prominent citizens, Democrats, will doubtless outweigh the claims of the few Republicans there resident. Democratic Senators and Congressmen will often be asked for suggestions concerning the character and fitness of applicants. It is the President's desire to remove from the minds of Southern people their belief that the Republican doctrine means official recognition and honors for the worst element of society. It is his desire to win the co-operation and sympathy of men of education, property, and public spirit through the South in the selection of men of good character and proper attainments for all Federal employments. It can be said, moreover, that some

of the old coteries of professional Republican spoilsmen in the South will be given a cold welcome at the White House. Many of these, Republicans for revenue only, who have offended the best elements of society at home just as they make themselves obnoxious in Republican National Conventions, are now camped near the White House demanding recognition for their alleged services to the party. As a rule, these gangs of spoilsmen have accomplished nothing for the party, except to make it odious, at being their policy to maintain a pretense of organization simply with a view to delegateships in National conventions and appointment to Federal places. An instance of this is found in New Orleans, where the old Pinchback gang is again aspiring to control the spoils, notwithstanding the presence in Washington of the Republican Congressman from that city who was nominated and elected without Pinchback's assistance.

## NEW ORLEANS REPUBLICAN CONGRESSMAN.

Twenty-six years ago Dudley Coleman came to Washington as a prisoner of war on his way to Fort Delaware. Now he returns as a Republican Congressman representing the nine richest wards of the City of New Orleans. He is a prominent manufacturer in his city and President of the Board of Trade, and has given the President his opinion of the situation in Louisiana. It is his belief that the old spoils seeking gangs should be ignored, that negroes should not be appointed to important offices, not because they are unworthy but because it is not wise to inflame the whites and that in local appointments leading citizens without regard to party should be made to feel that they have a voice. Mr. Coleman says there are thousands of progressive white men in Louisiana who have tired of voting the Democratic ticket, and but for the race question would join hands with Republicanism.

Public men who have made a study of the situation agree that there are great possibilities for the Republican party in the South during the Harrison Administration, but they do not agree as to the wisdom of sending investigating committees down there, nor on the advisability of placing Congressional election under direct Federal control. Recent discussions of the Southern question has brought out a somewhat extraordinary and suggestive concurrence of opinion to the effect that if the negro had not been given the elective franchise there never would have been a Solid South.

## Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Naby's, or of Phil Alliger, the drayman.

## WHAT ON EARTH

Is the reason people will not, can not or do not, see any difference in cheap nostrums put up by cheap John houses, irresponsible parties at enormous profits rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

BREVITIES.

Frost Monday night.  
Yesterday was a very pleasant day.  
An electric light is to be erected in Pownings Addition.  
Supt. White and wife returned from California yesterday.  
Property owners are busy cleaning up around their premises.  
The amount of building done in Reno this year will astonish the most sanguine.  
Mrs. S. O. Wells went below Monday evening to attend her husband who is reported ill.  
The weather will hardly get settled until after the 21st when the sun crosses the Equator.  
Mrs. R. L. and Mrs. J. M. Fallon will leave for an extended visit to Long Valley this morning.  
The workmen are busy on the brick-work of the new cistern at the junction of West and Second streets.  
The South Side Drain Ditch Company has levied an assessment of seven cents per share, delinquent April 20th.  
Harry Davis was yesterday fined \$120 or 60 days in jail by Judge Young for stealing money and jewelry at the County Hospital.  
The Nevada delegation have recommended A. T. Gibson for Postmaster at Winnemucca, J. H. Thies for Postmaster at Lovelock, and T. J. A. Flavin for Postmaster at Dayton.  
The Enreka Con. Company will soon receive some 700 tons of coke, several carloads of which arrive by every train. This indicates that their furnaces will start up in the near future.  
Fred Gladding was arrested Monday night on the complaint of his wife, who says that he choked and otherwise abused her. Gladding is in jail, where he will be allowed to remain until he gets sober.  
Governor Waterman, of California, formally announced last Saturday that he does not aspire to the Republican nomination for Governor, and it is currently rumored in Sacramento that Boruck has threatened to resign.  
James Savage started from Incline, Lake Tahoe, last Tuesday for Truckee. He was caught in the snowstorm of last week and wandered three days without food, finally reaching his destination with his feet seriously frozen.  
While rail and other highways suffered under the piteous rainfall, the face of mother earth rejoices, and the heart of the producer is made glad. The "wash-outs" and "landslides" here and there, and the temporary interruptions in communication, are as nothing compared to the wealth of benefit the country derives by reason of the storms of last week.

The Coming Road.

A well-informed railroad man informed a Bulletin reporter Sunday, in speaking of the railroad surveys: "There is no doubt that these surveys are being made by the Union Pacific, and it is very certain also that the route from the terminus of the Oregon Short Line (owned by the Union Pacific) at Huntington will be adopted as the most feasible entrance into California. It may be considered somewhat roundabout, but think of the country that will be opened up and made tributary and profitable. There is the rich country of South-eastern Oregon and Modoc. Lassen, Shasta, Siskiyou and Plumas counties would give the new road a large trade. As I understand the route as determined, is across the Malheur river country in Oregon, southerly to the extreme northeastern corner of Modoc county. Then the road will go on south between Goose Lake and Upper Lake to Alturas and along the canyon of the Upper Pit river, through the Fall river country to Hat creek, hence down Hat creek into Plumas and Butte counties, to Oroville, where the Rideout road will doubtless be made use of as an outlet into the Sacramento Valley."

A Happy Woman.

"The happiest women like the happiest nations have no history," says that wonderful writer, George Eliot, but no woman can be happy who is suffering from the irregularities and "weaknesses" so common to the sex. Dr. Pierce's Favorite Prescription will soothe the nervous troubles and restore health and vigor once more. The roses will bloom again on those faded cheeks. It is a positive cure for the most complicated and obstinate cases of pro-lapsus, weak back, "female weakness," anteversion, retroversion, "bearing-down" sensations, chronic congestion, inflammation and ulceration, inflammation, pain and tenderness, and kindred ailments.

IRRIGATION ACT.

Water District Commissioners and Their Duties.

The Act passed by the Legislature at the recent session to regulate the use of water for irrigation and other purposes, provides for the appointment of eight Commissioners, one for each water district into which the Act divides the State. Each Commissioner shall receive \$5 per day for each day in the year he is attending to duties of his office.

District No. 1 includes all lands irrigated by the Truckee river and its affluents; No. 2, lands irrigated by the Carson and its tributaries; No. 3, lands irrigated by the East and West Walker river and their tributaries; No. 4, land irrigated by the Humboldt and its affluents; No. 5, land irrigated by the Owyhee and its tributaries; No. 6, all land irrigated by the Reese river and its tributaries; No. 7, all land irrigated by White river and its affluents; No. 8, all lands irrigated by Muddy river and its tributaries.

The Commissioners are empowered to divide the water in natural lakes and streams among ditches taking water from the same. The Commissioners are also empowered to construct reservoirs at the headwaters of streams for storage purposes.

THE SPECIAL ELECTION.

The State Cuts Down Some of the Bills It Contracted.

The Virginia Enterprise says: County Clerk Wilds has been notified by Controller Hallock on the part of the Board of Examiners that the bill of Storey county against the State for the special election expenses of \$2,265 has been cut down to \$1,115.

There is nothing in the world to cast a shadow of decency on the action of the Board of Examiners, except the majority vote which they received that elected them to office, which was saying in effect that the people had confidence in them.

Suppose a merchant of this town was to send word to his San Francisco creditors that their bill was cut down 50 per cent. Is not that what the Board of Examiners have done? They have made a clean-cut horizontal reduction along the line, and offer no reason for it and assign no cause.

The several boards of County Commissioners were ordered to prepare for a special election. They prepared by engaging the services of trustworthy and capable citizens to act in the various capacities called forth by an election. There was no fifty per cent. horizontal deduction rate of wages mentioned to them when they were engaged. Could the law, if now evoked to name the price these officers shall receive, name any other price than that which has always been obtained in this community for such services? Can any man now engage a man to do mining work, and at the end of the month tender him the wages of a farm hand?

A number of the gentlemen who acted as officers of election at the special election on the Comstock propose to give the Board of Examiners a "rub" on the question.

Madame Janauschek.

The hiatus of several weeks in local theatrical entertainments will be appropriately terminated on the evening of March 25th by the appearance at the Opera House of the distinguished tragedienne, Madame Janauschek, in "Meg Merrilies." The Madame is supported by a strong company, which coupled with her fame as a star actress should attract crowded houses.

The box sheet is now open at Nasby's Bazaar.

Banished to Siberia.

BRIDGEPORT, Conn., March 18.—Attorney J. B. Klein, of this city, had an interview with Secretary of State Blaine yesterday and presented the case of Hermann Kempinski, the Bridgeport citizen, who has been cast into prison at Rowan, Russia, while on a visit to his native place. Kempinski, although armed with passports and credentials of citizenship, has been banished to Siberia, and, unless liberated by the demands of Secretary Blaine, will be transported May 1st. Mr. Blaine, it is stated, has cabled the authorities at Rowan demanding the prisoner's release, and a reply is expected within twenty-four hours.

Senator Stewart's special committee to investigate the subject of irrigating and reclaiming arid lands will enter upon their duties on August 1st, meeting at St. Paul and proceeding first to Montana. The Chairman expects the trip will occupy six weeks and cover the most of the Territories.

JUST THE MAN.

A Belief that Sewall Will be Returned to Samoa.

WASHINGTON, March 17th. Harold M. Sewall is likely to be sent back to Samoa by the Harrison Administration as Consul-General. The nomination of Bates of Delaware as the Democratic member of the Berlin Commission indicates that the President and Secretary Blaine are more disposed to indorse the Bates and Sewall view of the situation at Samoa than Bayard's view. Bates has been in the closest sympathy with Sewall all through the controversy. Sewall will go to Berlin with the American Commissioners to give them any information they need in regard to the geography or political history of the islands. If he is appointed Consul-General he will be given the necessary leave of absence to attend the Berlin Conference.

Osborne's Chances.

WASHINGTON, March 18.—H. Z. Osborne, who is a candidate for Public Printer, is winning golden opinions for himself. The President is greatly pleased with him, and notwithstanding the great number of well-indorsed applications for the position, it is said that the contest has narrowed itself to the Los Angeles man and Mr. Meredith, of Chicago, who served as a Captain in Harrison's regiment during the war. An effort is being made to give Captain Meredith the Superintendentcy of the Bureau of Engraving and Printing, the salary of which is the same as that of the Public Printer. Should this arrangement be perfected it will, it is believed, greatly improve Mr. Osborne's chances.

The Union Pacific's Strange Activity.

New York, March 18.—A Boston dispatch to the Herald says: Union Pacific affairs are in a curious shape again. There is an activity in the construction department strangely out of place in a company which has been posing as a bankrupt and asking Congress for an extension of its debt. Surveying parties are out and a number of new lines are projected. The most important is a direct outlet to the Pacific Coast at or near San Francisco. Every man charged with the management of the company for years back has recognized the necessity of such a road and tried to secure it.

The Inaugural Clean-Up.

WASHINGTON, March 18.—Chairman Britton of the Inaugural Committee today handed to the Commissioners of the District a check for \$26,000, this being the amount received from the inauguration over and above expenses. The fund is to be invested and the interest devoted to relieving the distress of the poor in the city.

U. S. Senator Chace, of Rhode Island, has resigned because of his inability to live on his salary, and there is talk of raising the compensation of Senators and Representatives.

Nevada potatoes are said to be a drug on the market. Pretty good for a "played out mining camp."—S. F. Bulletin.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. '94 21-aw-7-1

John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of 'photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.
